“The future belongs to the curious. The ones who are not afraid to try it, explore it, poke at it, question it, and turn it inside out.”

“I am among those who think that science has great beauty. A scientist in his laboratory is not only a technician: he is also a child placed before natural phenomena which impress him like a fairy tale.”

Marie Curie

The Council of Scientific & Industrial Research - Institute of Microbial Technology (IMTECH) was established in 1984 and is housed in a beautiful 47-acre campus at Chandigarh.

CSIR-IMTECH harbors state-of-the-art facilities, including the Microbial Type Culture Collection-Gene Bank, the G. N. Ramachandran Protein Center, Bioinformatics Center, and facilities that provide a seamless platform for process development, scale-up and cGMP grade bio-therapeutic production.

With >1000 publications in peer-reviewed international journals, and >200 patents filed and secured, IMTECH researchers have been recognized for research excellence by numerous awards. Many technologies developed at IMTECH (including the thrombolytics that are currently being sold in the Indian market) have been transferred to industry and many are in the pipeline.

The Science Outreach Program at CSIR-IMTECH aims to inspire young minds to discover the beauty in science and to inculcate in them the spirit of scientific thinking. As part of the Science Outreach Program, CSIR-IMTECH is happy to launch this year a summer research camp,

Jigyasa '17

for school children attending Class VIII to X

at CSIR-IMTECH campus, Sector 39-A, Chandigarh

during 15th - 19th May 2017 & 22nd - 26th May 2017

Activities

- Hands-on training in IMTECH labs with research projects specifically designed for school students
- A guided tour of the national facilities @ IMTECH

Take away

Exposure to real scientific world

Certificate of participation

Program Coordinators
Dr. Beena Krishnan &
Dr. Ashwani Kumar

Organizing Committee
Dr. Amit Tuli
Dr. Krishan G.Thakur
